INFORMED CONSENT, WAIVER OF LIABILITY, AND ACKNOWLEDGMENT FOR VOLUNTARY ATHLETIC ACTIVITIES

By their very nature, athletic activities can put students in situations in which **SERIOUS**, **CATASTROPHIC** and perhaps **FATAL** injuries may occur. These injuries could include, but are not limited to the following: death, paralysis, brain damage, serious injury to internal organs, bones, joints, ligaments, muscles, tendons, eyes, other aspects of the skeletal system and potential impairment to general health, well-being and physical appearance.

Students and parents must assess the risks involved in such participation and make their choice to participate in spite of those risks. No amount of instruction, precaution, or supervision will eliminate all risk of injury. By granting permission for your child to participate in athletic activities, you, the parent/legal guardian, acknowledge that such risk exists. Just as driving an automobile involves a choice of risk; participation in athletics is inherently dangerous. The obligation of parents and students in making this choice to participate cannot be overstated.

By granting permission for your child to participate in athletic competition, the parent/guardian acknowledges that playing or practicing in any sport can be a dangerous activity involving MANY RISKS OF INJURY. Further, because of the dangers of participating in athletics, parent and athlete recognize the importance of following coaches' instructions regarding playing techniques, training, equipment, nutrition, team rules, etc. both in competition and practice and agree to obey such instructions.

All participants in this activity should understand that participation is voluntary and is not required by the school. If any of the foregoing is not completely understood and you have questions, please contact your school athletic director or school administrator for further information.

Parents & guardians, please note: Section 35330 of the California Education Code states in part: "All persons making the field trip shall be deemed to have waived all claims against the District or the State of California for injury, accident, illness, or death occurring during or by reason of the field trip or excursion." Athletic activities to and from places are considered field trips.

The undersigned has read and hereby agrees to hold Northcoast Preparatory Academy, its employees, agents, authorizer(s), volunteers and/or sponsors and any other person, firm or corporation charged or chargeable with responsibility or liability, free and harmless from any and all claims, demands, damages, costs, expenses, loss of services, action and causes of action resulting from the use of facilities, equipment, and participation by child in the above named athletic activity, to the fullest extent of the law.

I have read and understand the material contained in this form and hereby authorize my child to participate in Northcoast Preparatory Academy's Athletics Program.
